COMMUNICATION

Dear Students/Cadets,

As the entire world is struggling to recover from the deadly ill-effects of the COVID-19 pandemic the University has also faced its share of challenges.

We at IMU are deeply sensitive to the economic situation prevailing in our country and the cascading financial difficulties that has impacted the lives of the families of our students. Conscious of the financial implications of the situation on the students, the IMU has taken a decision for deferment of fees.

In order to ensure that our students do not face challenges as a result of the pandemic, online classes were commenced from March 2020 and continued through June 2020. IMU has also instituted a system for conducting online examinations for the final semester students, so that their plans and prospects for employment or higher studies are not hampered. Our endeavor is to continue to impart the best education even during these difficult times, keeping the interest of the students in mind. At the same time, we recognize our obligations and our commitments towards timely payment for teaching and non-teaching staff as also the maintenance of laboratories, hostels and essential infrastructure.

We therefore seek your earnest cooperation in overcoming the unprecedented challenges and arrange to pay the semester fees at the earliest so as to ensure for smooth start of the new Academic Session.

Wishing you all the Best.

18th September 2020

VICE-CHANCELLOR
