1. About Indian Maritime University:

The birth of Indian Maritime University is a long cherished dream of the maritime community of India. The Indian Maritime University, established through an Act of Parliament (Act 22) in November 2008 as a Central University and headquartered at Chennai, is poised to play a key role in the development of trained human resource for the maritime sector.

The following are the objectives of the University:

- (i) To facilitate and promote maritime studies, training, research and extension work with focus on emerging areas of studies like oceanography, maritime history, maritime laws, maritime security, search and rescue, transportation of dangerous cargo, environmental studies and other related fields, and also to achieve excellence in these and connected fields and other matters connected therewith or incidental thereto.
- (ii) To promote advanced knowledge by providing institutional and research facilities in such branches of learning as it may deem fit and to make provisions for integrated courses in Science and other key and frontier areas of Technology and allied disciplines in the educational programmes of the University;
- (iii) To take appropriate measures for promoting innovations in teaching-learning process, inter-disciplinary studies and research; and to pay special attention to the promotion of educational and economic interests and welfare of the people of India;
- (iv) To promote freedom, secularism, equality and social justice as enshrined in the Constitution of India and to act as catalyst in socio-economic transformation by promoting basic attitudes and values of essence to national development; and
- (v) To extend the benefits of knowledge and skills for development of individuals and society by associating the University closely with local, regional and national issues of development.

4.6. Supply of Manuals & Drawings:

- 4.6.1. Two Sets of operation and maintenance instruction manuals for the Simulator shall be supplied to IMU – Chennai Campus.

- 4.6.2. Complete technical and functional specifications, operation and maintenance manual for each hardware / cards on the equipment with part numbers and model de-codification documents, to be supplied in original, photocopy is not acceptable.
- 4.6.3. Complete engineering details of each system as required for the purpose (experiments and research) the equipment's are bought.
- 4.6.4. Complete system wiring details, input, output, wiring details as applicable to the scope of supply.
- 4.6.5. Operation and maintenance manuals for the scope of supply including computers, Data Acquisition Units, interface devices etc. (to be supplied in original, photocopy is not acceptable)
- 4.6.6. The party shall supply all the software with proper license (including Windows, PC- Motherboard drivers (as applicable to the supplied electronic data acquisition units), and any other software as required. The supplied software should comply appropriate anti software policy norms.
- 4.6.7. One set of service agents and depots lists shall be supplied along with the equipment.
- 4.6.8. In addition to the Manuals given by the Manufacturers, the successful Bidder shall prepare full documentation.

4.7. Documentation:

- 4.7.1. The successful bidder shall provide IMU Chennai Campus with necessary documents including the following:
 - 4.7.1.1. Operational and Maintenance Manuals of equipment.
 - 4.7.1.2. Equipment serial numbers and models.
 - 4.7.1.3. Test Certificates, Licenses if any.
 - 4.7.1.4. Acceptance test results and acceptance status.
 - 4.7.1.5. Training Material.
 - 4.7.1.6. Full documentation with the software.
- 4.7.2. Four sets of hardcopy of the above shall be handed over to nominated personnel of IMU. Soft copy of the documents shall also be provided where applicable. Handing over of documents to IMU by supplier is a pre-requisite for Acceptance.
- 4.7.3. Manuals for the instruments are to be supplied with respect to operation, maintenance, ordering spares / technical services.

4.8. Power Tolerance:

The equipment or its battery charger shall operate correctly from a 220 or 440 Volts (+/- 15%) and 50 Hz (+/-6%) power supply 1Ph/3Ph. It should be capable of withstanding permissible voltage and frequency variations without any damage to the equipment or loss of the information.

Data Storage capability:

The equipment should be capable of storing sufficient measured data history in the equipment and should be able to transfer the data stored into a computer. The scope of supply includes all means by way of drivers, software and interface cables and adapters to facilitate such transfer.

4.9. Training and Support:

- 4.9.1. The supplier shall impart training to four persons at IMU - Chennai Campus on operation of the Simulators. The training will be conducted as and when software/hardware upgraded or any other parameters altered by the Manufacturer/Supplier. Periodical refresher training may need to be imparted.
- 4.9.2. The supplier shall make his own arrangements for supplying training material, equipment required for training etc.
- 4.9.3. IMU Campuses will provide necessary space, infrastructure free of cost for conducting the training.
- 4.9.4. The training provided by the supplier shall cover:
 - a) Operation of the equipment along with course/reference material for each individual.
 - b) Operational level training along with course/reference material for each individual.
- 4.9.5. On completion of training, the supplier shall submit an evaluation report on the participants along with course details.
- 4.9.6. Completion of training is a pre-requisite for acceptance of the equipment.
- 4.9.7. All charges pertaining to the training shall be part of the price bid.
- 4.9.8. Support the operators (all campuses of IMU as applicable) through help desk (online plus telephonic support) and visits to the sites (at his own cost) as may be required. The number of visits may be specified in the pre-bid meeting if any questions are raised on this.
- 4.9.9. Indicate willingness to arrange for visit by a team from IMU to any of the existing installations and share the contact details of the key personnel of that institution.

4.10. Acceptance of Equipment:

- 4.10.1. The activity shall be deemed to have been completed with the completion of Supply, Installation, Commissioning, Training and putting in to operation of Simulators at IMU-Chennai Campuses.

However, the supply shall be complete only upon certification to this effect issued by IMU's Consignee i.e. the Director of IMU - Chennai Campus.

4.10.2. Upon completion of Supply / work and after successful completion of other prerequisites like acceptance testing, Training etc., as prescribed in this document, IMU shall receive a written undertaking from the supplier that the supply / works has been completed and accordingly a certificate of completion would be issued in respect of the supply/works. The warranty period for the supplied system would commence from the date of Acceptance by IMU - Chennai Campus.

4.11. Bidder's Representations and Warranties:

The selected bidder has to confirm to the IMU that:

4.11.1. He has the capability to duly perform its obligations in accordance with the terms of the tender and to the satisfaction of the IMU. However, that the IMU's decision in this regard shall be final and binding on the Bidder.

INDIAN MARITIME UNIVERSITY

OFFICER OF THE WATCH –NAVIGATION SIMULATOR

Technical Specification Documents for procurement of Officer of the Watch(OOW) –Navigation Simulator

1. Objectives of Officer of the Watch(OOW)–Navigation Simulator

“The objective of the Officer of the Watch –Navigation Simulator at Indian Maritime University Chennai Campus is to train the students in Ship-handling and conduct of Navigational operations, including the handling of navigational emergencies. This may be achieved by controlled training in a simulated environment, leading to a better understanding of navigational operations and by developing the associated skills.”

In order to fulfil these requirements, the simulator shall be capable of the following:

- i. The training recommended in latest IMO Model Course 1.22 (2002) as amended & as part applicable for training of Officer of the Watch & the training requirements for navigating officers by complying with latest DG Shipping, Govt. of India circulars (currently Training Circular No. 28 of 2005), STCW 2010 code with latest amendments as applicable concerning to maneuvering and handling of a ship in various conditions and establishing good team work during bridge watch keeping.
- ii. Algorithms used to simulate various processes, functions and events should have the same effect/consequences as proper output, to converge towards real ship conditions and performance.

iii. Ship type as well as the equipments should be simulated as that of a real ship. The simulation models shall be based on real-time programming and thereby be able to replicate the operational behavior of bridge installations as well as the interactions between the sub-systems for all ship types in all specified areas for chosen exercises.

iv. The Simulator hardware and software should be validated and certified to industry standards by an agency deputed to such works. Such agency includes Classification Society (IACS members only).

v. Provisions for scalability for instructor stations and Student stations to be provided.

vi. In the event there is upgradation in software and/or hardware of the simulator within first two years of commissioning, it should be supplied and incorporated free of cost for simulator to be functional. These upgradation and changes shall include IMO requirements, DGS requirements, or general changes in Officer of the Watch –Navigation Simulator Technology. Subsequently simulator should be upgraded as and when needed incorporating these changes.

vii. Training for Master Mariners after commissioning of the simulator and at each time after the up gradation of the simulator shall be provided to the satisfaction of IMU Chennai Campus. Number of Master Mariners for training will be notified by IMU Chennai Campus and the training schedule will be of 3 days or as appropriate, and certificates will be awarded to the Master Mariners.

viii. In the context of the Administrations requirement of 3 years AMC at the end of 2 years Warranty, The comprehensive maintenance for the next five years shall be provided after the successful commissioning and handing over of the fully operational simulator to IMU Chennai campus on turnkey basis. During the warranty period of first two years, the comprehensive maintenance of the simulator and up gradation shall be free of cost. This includes replacement / repair of parts. And for next three years the comprehensive annual maintenance contract shall be quoted at the time of bidding.

ix. All maintenance issues shall be attended within one working day at IMU Chennai campus. Working hours at IMU Campus will be 0930 hrs to 1730 hrs on all official working days. This includes online and in-person maintenance.

2. Specific Objectives:

The simulator shall at least be capable of creating situations ensuring appropriate operational training:

- i. In simulating a realistic environment for all of the applicable STCW competence requirements, IACS members Standard for certification of Maritime simulator systems or the latest.
- ii. In knowledge and use of "International Regulations for preventing collisions at sea, 1972 as amended."
- iii. To train the students in simulators of at least 4 types of own ships.
- iv. To train the cadets in simulators with at least 10 different types of targets each equipped with mathematical models, which account for motion, drift and steering angle according to the forces induced by current wind and wave.
- v. The simulator shall be able to provide at least 4 international geographical visual areas for exercise which include open sea and high density areas.
- vi. To train the cadets in IALA Buoyage system of Region 'A' & Region 'B'. To virtually create such channel for simulator training.

3. Standards of Simulation:

- i. It should be suitable for the selected objectives and training tasks
- ii. It should be capable of simulating the operating capabilities of shipboard equipment and include the capabilities, limitations and possible errors of such equipments.
- iii. It should have sufficient behavioural realism to follow a trainee to require the skills appropriate to training objectives.
- iv. It should provide a controlled operating environment, capable of producing a variety of conditions, which may include emergency, hazardous or unusual situations relevant to the training objectives.

v. It should provide an interface through which a trainee can interact with equipments, the simulated environment and, as appropriate, the trainer.

vi. It should permit the Master Mariners to control, monitor and record exercises for the effective debriefing of the trainees.

4 Simulator specifications: The simulator consisting of a ship station with instruments of navigation as listed below, as well as display of target ships and surroundings as seen from a wheel house.

4.1 Equipment and consoles to be installed, mounted and arranged in a ship-like manner.

4.2 A separate control for instructor with equipment necessary to monitor the activities in the wheel house effectively.

4.3 The equipment installed in the simulator shall have a similar functionality to corresponding equipment used on board.

4.4 If any equipment does not correspond to the specific make, the applicable IMO performance standard (functionality requirement) for such equipment shall be followed.

4.5 If such a performance standard does not exist, then the functionality of equipment shall, as a minimum, be the same as for any recognized genuine equipment of that type, in use on board ships.

4.6 Equipment as fitted shall resemble the behavioural characteristic for example; accuracy, reaction time and other limitations, related to corresponding equipment in use on board ships.

4.7 User manuals for the simulator equipment and operational control shall be available to the learners for use during exercise.

5. Detailed Specification:

5. Visualization:

5.1 Three channel visualization of high resolution SVGA/XGA graphics, about 60-degree horizontal field of view on each side.

(Para 3.1.1 of DGS ANNEXURE-1)

5.2 The visual screen Projector type of at least 60 inches' diagonal size on each screen. The visual system shall present all navigation marks as displayed on paper charts for that area.

(VARIATION FROM PARA 3.1.2 OF DGS ANNEXURE-1)

DGS ANNEXURE PARA 3.1.2 reads as "3.1.2- The visual screen Plasma/LCD/Projector type of at least 40 inches diagonal size on each screen. The visual system shall present all navigation marks as displayed on paper charts for that area."

5.3. The visual system shall show objects with sufficient realism (detailed enough to be recognized as in real life). The visual system shall replicate movements of all own ships according to 6 degrees of motion freedom.

(Para 3.1.3 of DGS ANNEXURE-1)

5.4 The simulator shall provide a realistic visual scenario by day, twilight or night, changing with time. It shall be possible to create a range of visual conditions ranging from clear to partial [rain, haze] to restricted [dense fog]".

(Para 3.1.4 of DGS ANNEXURE-1)

5.5 It shall be possible to take reasonably accurate bearing of objects seen on the screen preferably using an azimuth mirror on the gyro compass or Pelorus for relative bearings.

(Para 3.1.5 of DGS ANNEXURE-1)

5.6 It shall be possible to use magnified views of the observation.

(Para 3.1.6 of DGS ANNEXURE-1)

5.7 The visual system shall present at least a total of 20 degrees of vertical field view.

(Para 3.1.7 of DGS ANNEXURE-1)

5.8 There should be proper correspondence between the visual picture and radar.

(Para 3.1.8 of DGS ANNEXURE-1)

5.9 Para 5 of DGS ANNEXURE-1 WHICH READS AS "Chart Table with paper chart and publications: Chart table will resemble a ships chart table with minimum dimension of 4 X 3 ft. Paper charts and publications provided shall be appropriate for the areas in use."

ECDIS of latest version to be supplied in addition to the requirement of para 5 of DGS ANNEXURE-1.

6. Technical Specifications:

Following specifications are as minimum requirement for OOW simulator:

- i. Specifications by D.G. Shipping (Training Circular No. 28 of 2005, letter No. 11-TR (81)/2005). The circular is attached to this document as Annexure 1.
- ii. Specifications as mentioned in STCW 1978 as amended to STCW 2010 including Manila Amendments Section A-1/12 & Section B-1/12. The guidance is attached to this document as Annexure 2.

Committee opines that demonstration at factory/offsite, of the OOW simulator should be witnessed by members as a part of tendering process.

Recommended by Committee Members for tendering process:
