13-01-2022

**Clarifications for Bid No:GEM/2021/B/1742418, dated:03-01-2022**

Please find below the Clarifications based on the Pre-bid meeting held on 07-01-2022:

Sl. No	Query	Clarification Incorporated
1	If the firm has ISO certification and not CMMI certification, is the bidder eligible to participate?	The certification of ISO for IT Standards or CMMI level 3 is acceptable. So long as the Vendor is able to prove their competencies through certifications.
2	Considering the Covid latest developments, we are not sure of the new Government rules that will come in place. Also, it will be a high risk if the entire team is at one place. Can the allocated team work remotely and only one person to be deputed onsite for coordination?	The Project Manager will have to be available throughout the project period of 3 months. The relaxation will be given for other roles for the period for which there are travel restrictions. Otherwise the whole team will be required to be available at IMU premises
3	As the minimum qualification of the vendor certificate is CMMI-L3, we request you please verify the certificate through the CMMI institute portal for authentication of certificate.	verification of Genuineness will be the prerogative of IMU
